This match up game has synonym pairs for your older students 4<sup>th</sup>-7<sup>th</sup> grade. Play the game just like memory. Print up the cards, laminate and cut out. Students have to find the synonym pair in order to keep the pair. The student with the most synonym pairs is the winner. There are also sentence stimulus cards with fill in the blank choices of these vocabulary words. Students must use the context clues to figure out which word would fit best in the sentence.
